## Renew Facial Tissue

Morpheus8 targets subdermal layers to remodel collagen and enhance the appearance of the tissue.

Morpheus 8 is a novel, state of the art device which uses radiofrequency energy delivered via microneedles to gently heat subdermal tissues resulting in skin tightening as well as giving improvements in skin texture and quality. The device can be used on the face, neck and body. It is suitable for all skin tones.

**Price – £999 (3x sessions) face & neck included**

**Treatment time – 30 mins**

**Recovery time – 3-5 days**

**Results – 2 – 4 weeks post initial treatment**

**Longevity – 12 months**

## What is Morpheus8 used for?

Morpheus 8 is particularly good for saggy, loose skin on the face, neck or body. It can be used to treat:

- Jowls
- 'Turkey' neck
- Sagging skin on the middle and lower face
- Stretch marks
- Loose skin on the thighs and around the knees
- Loose skin on the tummy area

## Stimulate Collagen

Stimulate the production of collagen in the underlying layers of the dermis. The Morpheus8 modular tips enable procedures to be customised to treat small facial zones.

Are there any other benefits?

Deep and safe fractional treatment penetrating up to 4mm with an additional thermal profile of up to 2mm. Advanced design creates extremely uniform effect. Little to no thermal damage to dermis.

Interest - 0%

## FAQ'S

### **What happens during the Morpheus8 treatment?**

Morpheus8 is a handheld device. It is applied to the area being treated for a period of seconds and heat energy is delivered. It is normal to feel some discomfort and tingling.

### **Is there any downtime with Morpheus8?**

As Morpheus 8 is a non surgical procedure there is minimal downtime. It is normal for the skin to be red immediately following the treatment. This redness may persist for up to 5 days but normally subsides in a few hours. Some mild scabbing may occur for a couple of days post treatment.

### **How long does the Morpheus8 treatment take?**

Morpheus8 treatment usually takes 20-30 minutes depending on the areas being covered. 3x sessions of treatment are booked 4-6x weeks apart to ensure optimal patient recovery before subsequent treatments.

### **Is Morpheus8 treatment painful?**

For Morpheus8 treatment pain can be managed with a combination of topical and local anaesthetic. This minimises discomfort. Most patients tolerate the procedure well.

### **How many treatments do I need for Morpheus8?**

Morpheus8 usually requires 3 treatments that are spaced out 4-6 weeks apart for optimal results.

### **When will I see results from Morpheus8?**

After Morpheus8 treatment improvements in skin texture/quality may be noted 2-4 weeks after the first treatment but best results are seen after 3-4 months and continue to improve for a year post treatment.
